Page 3 MATTERS RELATING TO PROHIBITED ARTICLES, LUXURY GOODS ETC.

I. PROHIBITED IMPORTS:-

(1) Opium and opium pipes.
(2) Counterfeit or falsified paper currency, bank notes or securities.
(3) Books, pictures, carvings or other articles detrimental to public order or morals.
(4) Articles which infringe patents or utility model rights, registered designs, trademarks or copyrights.
(5) Phosphorus matches.
Pages 4, 5 & 6 (6) Firearms, powder and explosives.

The above are determined by the Customs Law, Proportional Duty Law, Law for the Prohibition of the Manufacture of Phosphorus Matches, Law for the Control of Firearms and Powder, the Regulations for the Control of Explosives, etc.

II. LUXURY GOODS:-

Furs, time-pieces, photographic cameras, carpets, mahjongg sets, playing cards, spectacles, other metal articles, perfumes, wines and liquors, etc.

The above articles are governed by the clause relating to the importation of luxury goods and the law relating to the emergency disposal of import and export goods and the like. In accordance with Article 12 of the Regulations for the Enforcement of the Trade Control Decree, these articles, when not intended for personal use, or are of the value of YEN 50 or over, require a permit from the Minister for Commerce and Industry.

Such articles, even of a value of YEN 50 or less, are liable to a duty of 100%.

III. PERSONAL EFFECTS TO BE TAKEN INTO JAPAN PROPER:-

(1) Prohibited imports and dutiable goods:-

Prohibited imports and dutiable goods are not permitted to be taken. (This does not apply to articles within the prescribed limitations, or to articles on which duty is to be paid).

(2) Articles purchased:-

In the case of articles purchased, for which a receipt for payment has been obtained at the time of purchase and whose origin is clear, as well as those for which this could not be done, their source will be investigated by the commander of the regiment or independent force (独立部隊), or an officer of higher status. The said officer will then authorize the taking (T.N. into JAPAN) of such articles as are legitimately purchased articles. He will order other articles to be disposed of by the holder, or, according to circumstances, may confiscate them, and will not allow them to be taken into JAPAN.

Page 7 (3) Presents:-

The commander of the regt or independent force (独立隊) or an officer of higher status, will investiage the source of such articles, and if they are legitimate presents, will authorize their being taken (T.N. into JAPAN). He will order other articles to be disposed of by the holder or, according to circumstances, he may confiscate them, and will not allow them to be taken into JAPAN.

DECLASSIFIED
Authority NND 750140

Pages 8, 9 and 10

(4) War souvenirs:-

The commander of the regt or independent force, or an officer of higher status, will investigate the source of such articles, and will authorize the taking (T.N. into JAPAN) of such as he may deem suitable to be kept by individuals as genuine souvenirs. The said officer will confiscate all other articles and will not permit them to be taken into JAPAN. When articles not authorized for taking to JAPAN are ordered to be disposed of by the holder in accordance with the foregoing clauses, but cannot be returned or otherwise dealt with, they will be handed over to the officer mentioned, who will confiscate them. It is important that no unfavourable reaction be caused externally.

IV. ARTICLES TO BE TAKEN (T.N. INTO JAPAN) BY BUTAI (excluding equipment for military use):-

These conform to the same rules as personal effects.

It is provided, however, that in this case authority will be granted by OC independent brigade (独立旅団長) or OC bn, or officer of higher status.

V. OTHER MATTERS:-

Military articles from the enemy forces or our own, which have been received as gifts, or purchased, or otherwise acquired, by ordinary visitors or observers, will be investigated by the expeditionary force (派遣軍). The latter will certify such of the articles as are not liable to be harmful from a military standpoint, or dangerous and may therefore be taken (T.N. into JAPAN). The expeditionary force will give appropriate instructions to prevent articles which cannot be so certified being taken away.

The above paragraphs III, IV, and V are contained in a notification, "RIKU SHI MITSU No. 483" (陸支密第四八三 : presumably Army China Secret 483") dated 10 Feb '38, from the Vice Minister for the Army to the Army.

MILITARY SPECIAL URGENT BULLETIN

The prohibited areas of SHONAN SHI (City of SINGAPORE) will be abolished on and after 1200 hrs on 5 Apr.

Details will be indicated by the Chief of Staff.

3 Apr '42
YAMASHITA, Hobun
Army Commander.

Pages 12) & 13)

In conformity with Military Special Urgent Bulletin.

INSTRUCTIONS OF THE ARMY CHIEF OF STAFF

A start having at last been made in the restoration of SHONAN (SINGAPORE), the Army, in view of the present situation, has abolished the prohibited areas (T.N. i.e. these areas are no longer out of bounds). This does not mean, however, that there has been any change in the motives which caused these areas to be placed out of bounds.

Not only are traces still evident of the looting and violence which has taken place, many BUTAI which pass through SHONAN or are billeted there do not adhere to the regulations, or make improper use of official certificates.

DECLASSIFIED
Authority NND 750140

Now, not only does every single act of an officer or soldier in the Island of SHONAN reflect on the military discipline and morals of the whole Army, but it often makes a profound impression on the natives of the occupied territory.

Pages 13 and 14 Every BUTAI therefore, as it is transferred to the old barracks, etc., and proceeds with its main duties and concentrates on the importance of education and training, must also promote military discipline and morals, determined to make of itself a model for the entire Army.

Regulations relating to the abolishing of the prohibited areas have been established as shown in the separate sheets.

Pages 15) & 16) Separate sheets

REGULATIONS RELATING TO THE ABOLITION OF THE PROHIBITED AREAS IN SHONAN-SHI

1. NCOs and men (including civilian personnel) will make purchases, or eat and drink, in the shops specified by the Army.

   Officers in general will also conform to the above.

   Shops specified by the Army are indicated in the sketch on separate sheet.

2. As far as possible, leaves for each BUTAI should correspond with days assigned at the club. Advise the garrison HQ beforehand. (Leave for this TAI will be notified separately).

   Those granted leave will carry leave passes issued by the OC of the inf bn to which they are attached or an officer of higher status, or by the OC of an independent TAI. (In the case of regts, they should be issued by the regimental commander).

   However, BUTAI stationed in JOHORE State will not be granted leave to go to SHONAN Island except on official business.

Pages 17) & 18) 3. When any BUTAI (including BUTAI in billets) is granted leave, necessary patrol officers (NCOs) will be sent out, and they will promptly submit a report to the SHONAN Garrison.

   For the present, military police will patrol and observe shops specified by the Army and will submit a report to the SHONAN Garrison.

4. BUTAI passing through or billeted in SHONAN City will report promptly to the SHONAN Garrison, and will endeavour to make their stay in the city as short as possible.

   The embarkation office will therefore maintain liaison with the SHONAN Garrison regarding BUTAI which land (including crews) and will give them due notice.

5. The garrison commander and the 2nd Field Military Police Force (隊) will detain in the detention camp those who break the regulations, and will report them to the OC of the BUTAI to which they belong and to the Army commander.

GARRISON BULLETIN:-

2. According to reports from the military police there are still traces of anti-Japanese elements. Taking advantage of the relaxing of military control following the restoration of public peace and order, they are showing signs of activity. The following are some of the resolutions adopted at a conference of the terrorist group (テロ団) recently rounded up:-

1. To murder Japanese soldiers when seen in ones and twos.

2. Women to display a liking for Japanese soldiers, and murder them when off guard.

The said terrorist group is being closely investigated by the police. Every TAI should take strict precautions when employing Chinese.

1. The saluting, bearing and behaviour, as well as conditions of military discipline, morals and sanitation of troops coming ashore from transports touching at SHONAN Island are extremely bad, and in consequence, no landing will hereafter be permitted. (昭南島寄港部隊上陸者ノ敬礼態度行動等軍紀風紀及衛生状態極メテ不良ナルヲ以ツテ自今上陸ヲ一切嚴禁ス).

In cases where landing is absolutely unavoidable, for purposes of exercise for the preservation of health, authority must be obtained from the Army Chief of Staff and troops must come ashore under an officer. They are prohibited from entering busy sections of the City. Patrols from each TAI will order anyone breaking this regulation to report to the garrison HQ.

1. On 1 Apr., 2 armed anti-Japanese communist bandits in the jungle near the town of BROGA (between KUALA LUMPUR and SEREMBAN) in

DECLASSIFIED
Authority NND 750140

SELANGOR State fired on a garrison patrol, killing one man and wounding another. Guards immediately set out and engaged a force of bandits, who were armed with machine guns and rifles.

Lately, with the shortage of food and the rigidity of control, there is a great tendency for the population to turn to banditry.

Each TAI must again make sure that the clearing up of former battle areas near their quarters is complete. Arms that have been scattered about must be properly collected and means taken to prevent weapons getting into the hands of the population.

4. Methods of directing the work of prisoners of war must be made still more strict. It is necessary that subordinates be trained so that in the future they will be capable of dominating (壓倒) (T.N ATTŌ SURU - "bearing down on") white men and putting them to work. At every turn we see men displaying an attitude of diffidence in directing prisoners (遠慮気味ノ指揮振), as though the latter were on an equal footing with themselves - these men do not know themselves.

You must have sufficient self-respect to place yourselves on a higher level (一段高キ位置) and use them like Canton coolies. In giving orders, use bugles, whistles, or Japanese words of command and make them move smartly (嚴正 = GENSEI NI "rigidly"). Those who do not comply must be dealt with rigorously (嚴重 - GENJŪ NI) and such like measures taken to make them do exactly as the Japanese Army wishes.

5. There are some BUTAI which, out of a feeling of compassion (愛惜 AISEKI) for the prisoners, give them too much rest, or start late for the place of work. Why should we waste compassion on a crafty enemy, who has killed and wounded thousands of our comrades? Such cases are a manifestation of the mistaken ideas of those who direct and supervise the prisoners and a weakness of will which shirks trouble. These men should be made to remember the sacrifice of their dead comrades and reflect seriously on themselves.

GARRISON BULLETIN 14 Apr

(T.N. Extracts)

1. Army HQ will be moved to the site of the former MALAYAN Far Eastern Army HQ (FORT CANNING Hill) as from 16 Apr.

BULLETIN 16 Apr

(T.N. Extracts)

3. There are some who are lax in their control over prisoners in their work and let them do as they like. In particular, there are a large number of prisoners who take rests on their own initiative, work half-heartedly and talk, or who waste time waiting for other work because of improper allotment of earth-working tools, straw baskets, etc. Sometimes too many men are assembled and the work done by an extremely small number, while in other cases, out of thousands of men allotted for a job, only a few are actually sent out to work. All this is due to insufficient attention to matters of detail, and results in extreme dilatoriness out of proportion to the number of personnel. Such ways are not the ways of our unit (隊 TAI). The enemy who watches the progress of such work, must be sneering in his heart at the slackness of the Japanese Army Engineers.

By lucid and appropriate leadership, the staff, with the feeling that they are training themselves to fit the present situation, must learn to command as at the head of an army, and so avoid bringing disgrace upon the Japanese Army Engineers.

DECLASSIFIED
Authority NND 750140

4. Looking at the contents of each company's barracks, it is noted that arms are not properly guarded and in some cases there is danger of arms being stolen by prisoners or natives. Stricter precautionary measures are necessary so that there will be no neglect. Again, electric fans are running where there is nobody present. Control is lax over prisoners of war driving cars, some prisoners have too many personal effects, there are many cases of this kind, calling for staff supervision. Officers of the day should make special efforts in this direction.

2. Recently anti-Japanese bandits have been making their appearance in a certain area in the MALAY Peninsula and attacking vehicles of the military police transporting rations and fodder. Every TAI will in future see that troops going out for liaison with outlying districts are adequately armed so as not to be taken unawares.

Pages 72 & 73

BULLETIN

4 Jun

1. Either today or tomorrow morning, during the physical exercise period, each coy comdr will give spiritually instructive talks to his men. It is desired that he prepare them thoroughly, so that upon the commencement of operations, no unfortunate occurrences may take place in landing areas. Compared to other operational areas, cases of rape are very frequent in the Philippines. It is earnestly desired that troops will have proper self-respect so that they may not be led astray into unexpected crimes under the influence of their environment, and that they will achieve a glorious conclusion to their task through the exercise of strict military discipline.

2. Venereal disease appears to be extremely prevalent. After landing, troops must not enter relaxation houses other than those indicated, and men should warn their comrades and take special precautions not to contract a terrible infection. Medical personnel will make troops going on leave thoroughly understand the orders given at SHONAN (SINGAPORE) regarding prevention of venereal infection.

3. It would be a misfortune if troops, under the influence of liquor, were to commit crimes of violence even before they had a chance to fight against the enemy. It is expected of the men that they will admonish their comrades, so that they may have self-respect and fight bravely, and in this campaign, perform the most meritorious deeds of the whole Army.

3. DAVAO and its environs, being a Japanese type town, built with blood and sweat of Japanese, particular precautions will be taken against outrages and looting.

On the 5th a soldier belonging to a certain BUTAI committed rape against a Filipino, and now is in the custody of the military police.

4. Automobile accidents are very frequent in DAVAO of late. Drivers must abide strictly by the rules given below and be careful not to cause injury to pedestrians:-

(i) Speed limit in native villages 30 km per hr
(ii) " " outside native villages 50 " " "
(iii) Sound warning signal when entering or leaving villages, and when passing crossroads.

5. Coconuts, papayas, etc (T.N. growing on trees) being the property of Japanese or Filipinos, must not be appropriated for personal use . . . . . .

MESSAGE

Having assumed command of the 17th Army, in accordance with the orders of His Imperial Majesty, I am now about to undertake the important duty of carrying out one phase of the War of Greater East Asia.

His Imperial Majesty, the Field-Marshal Commander in Chief, realizing the momentous nature of this Army's mission, recently summoned me to the Imperial Palace and was pleased to grant me a gracious Rescript.

Deeply impressed, like myself, with this honour, you will put to practical use the experience you have gained in your many battles and repeated victories, gird up your loins, and renew your determination. You will increasingly promote military discipline, perfect your training, with outstanding initiative overcome all difficulties and, displaying the true worth of god-inspired soldiers of a god-sent Army, carry out your mission to completion.

This is my message.

HYAKUTAKE, Harukichi
Commander of the 17th Army.

2. Although general regulations pertaining to the use of relaxation houses have been drawn up and distributed to each TAI, these regulations are still not strictly adhered to. In particular, users are not to exceed the time limit, or emit boisterous sounds which may disturb others.

BULLETIN 19 Jun

(T.N. Extracts)

1. Since landing at TALOMO (タロモ) military discipline and morals have been extremely well maintained, thanks to the guidance of the staff and the self-respect of the troops. However, discipline and morals tend to slacken during a long period of idleness. At the present time, following the disturbed conditions arising out of the operations in BATAAN, many cases of rape and looting take place. A case occurred in which a soldier of a certain BUTAI here forced his way into the house of a Japanese resident (the master being out, and the rest of the household consisting of women and children only) with intent to commit some act. Upon the household raising an alarm, the man made his escape.
